About this book

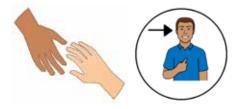

This book is about our **person centred active support** policy.

Person centred means we

- listen to you
- help you think about what you want from your life.

Active support means we will help people with disability to have control in their life.

Person centred

We will talk to you about what you want from your life

• now

and

• in the future.

We will listen to you.

We will help you to meet your goals.

Goals are things you want to happen.

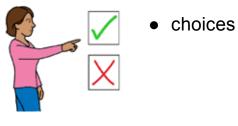

We will talk to you about **risks**.

Risks are things that could cause problems.

Active support

We want to help people with disability make their own

decisions

- goals
- relationships.

We will help you to

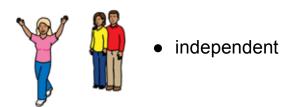

- learn
- know your goals

• live a good life.

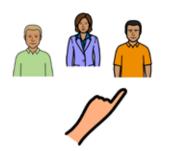

We will give you the help you need to be

• confident

successful.

For example we want you to

• choose relationships you want

- be part of your community.

• go to places you like
